- f) Staff should give as much notice as possible when requesting annual leave, taking into account arrangements for managing annual leave. For example, staff taking more than 10 consecutive days of leave, shall obtain approval 2 weeks prior to the planned leave dates. For annual leave less than 10 days, staff shall get approval between 3-5 days prior to taking leave. Unless the leave is treated as unforeseen or emergencies that may arise. For the December/January period, OAG staff are encouraged to utilize 10 days consecutive annual leave and spend time with their families and the Office shall operate with minimal staff.
- g) People Management Specialist will accommodate requests for annual leave where short notice has been given, taking into account the needs of the OAG service, in downtime of ESS function or based on any other unforeseen circumstances where access to ESS is not practical and therefore manual leave applications will be maintained and accordingly updated in ESS once system is restored.

By their last day of service, staffs are usually required to have taken no more and no less than the amount of annual leave to which they are entitled. This means that they must try to take all outstanding annual leave before their last day of service, especially if they are due to resign or retire.

However, if on the last day of service, leave taken is less than service entitlement - the untaken leave should be utilized before staff departure. However, this must be approved by AG or DAG.

10.0 Calculation of Leave for Staff

For the purpose of this policy, the calculation of leave and leave allowance on a pro-rata basis shall be on the completed fortnights served in the leave year and leave allowance or passage earning period respectively. This is due to ESS been linked to fortnightly payroll processing in Pay-Global

Example:

A contract was signed on 01 January 2021 with a leave entitlement of 21 days and on the 15 July 2021, the staff decided to resign or raised question on the leave entitlement.

Calculation:

21 days divide by 26 fortnights multiply by 14 fortnight (from Jan to 15 July)
